

## Identify your needs in industry 4.0 and we will find solutions for you.

### Do you have technological challenges for which you haven't found the right solution, yet?

**Gazelle Accelerator** will identify your market needs and technological challenges in industry 4.0, in order to match them with solutions developed by innovative SMEs and Start-Ups; future European Gazelles.

**Gazelle Accelerator**, an **EIT Manufacturing** program, aims to accelerate the transformation of European industry, by strengthening the collaboration between Corporates and innovative Start-ups and SMEs, enabling to amplify their Open Innovation network, and to build bridges to extend existing innovation frontiers.

### By participating in this survey:

**1**

Your needs will be matched with innovative solutions.

**2**
