YOUR TRAINING SOLUTIONS ARCHITECT

BRICKS : your training solutions architect

With more than 40 years of experience, BRICKS designs and implements with its training partners, tailor-made training solutions and services for foreign professionals in the aerospace sector, identified as partners, customers, prospects or suppliers of the sector.

Our service offer

Tailor-Made training

- Specific training courses, lasting a few days up to several months, set up in France or abroad
- Creation of diploma or certificate courses

Relocation services

- Relocation services accompanying training programs in order to guarantee a turnkey service
- Human support for trainees and their families

Catalogue training

- Induction Week Program
- Intercultural training
- Specialised Masters from internationally recognised French engineering or business schools

International project management

- Setting up and monitoring international training projects

OUR ADDED value

1

40 years of **recognised experience** in the aerospace field

2

A single point of contact to support you throughout your entire project

3

A team of experts with a strong awareness of intercultural issues

4

A tailor-made solution combined with human support (relocation...)

5

An active network of foreign professionals : BRICKS COMMUNITY

6

The dynamism and experience of a leading European competitiveness cluster in the aerospace field

They trusted us

- **Industrial leading groups**
- **SMES and startups**
- **Armed forces**
- **Space agencies**
- **Airlines companies**
- **Schools - Universities**

BRICKS COMMUNITY :

our network of aeronautics professionals

Since 1980, BRICKS has contributed to the training of more than 4000 foreign professionals.

Among them, more than 1000 active contacts in 60 countries constitute today a **network of professionals in the aeronautics and space sector, now called the BRICKS Community.**

Premier Pôle de compétitivité européen de la filière aérospatiale.

Resulting from the merger between IAS and Aerospace Valley in December 2020, **BRICKS is now an integrated service of the Aerospace Valley competitiveness cluster and its mission is to support the growth and development of its members internationally through training engineering.**

Aerospace Valley is the first world competitiveness cluster for the aerospace sector, serving three strategic industries - Aeronautics, Space and Drones - and covering the Occitanie-Pyrénées-Méditerranée and Nouvelle-Aquitaine regions.

Ranking in the top 3 world competitiveness clusters for the performance of its cooperative R&T projects (among which 675 have already been funded), **Aerospace Valley is in charge of animating a dynamic network of international reputation, composed of 810 members** (industries, research labs, training centres, universities and high schools, local authorities, structures for economic development) including 592 SMEs.
