

AXISCADES and Electronic Bird Control Sign MoU to Deploy Falcon-Inspired Drones in India

Bengaluru, India / Nimes, France – 5th November, 2025: AXISCADES Aerospace & Technologies Limited, a leading Indian Defense Technology solutions provider & wholly owned subsidiary of AXISCADES Technologies Limited (BSE: 532395 | NSE: AXISCADES), and Electronic Bird Control an innovative French drone company, have formalized a strategic Memorandum of Understanding (MoU) to bring the E-Raptor, a state-of-the-art drone, ingeniously crafted to resemble a falcon, to the Indian market for both military and civilian applications.

The E-Raptor which is one of the first of its kind in the world merges cutting-edge biomimetic engineering with advanced UAV technology, offering exceptional stealth, agility, and performance in surveillance and bird control operations. Its realistic falcon-inspired design ensures operational effectiveness across diverse terrains, supporting missions ranging from defense reconnaissance to essential civilian initiatives like airport safety and wildlife management.

Ravikumar Joghee, Chief Strategy and Marketing Officer of AXISCADES, commented, *“We are delighted to join hands with Electronic Bird Control to introduce the E-Raptor in India. This partnership reflects our dedication to innovation and our drive to provide solutions that meet the complex demands of both defense and civilian sectors. We are committed to localise e-raptor drone production in India as part of the Make in India initiative.”*

Adrien Laffon, CEO, Electronic Bird Control, added, *“Our alliance with AXISCADES marks a pivotal advancement in drone technology and international collaboration. The E-Raptor’s lifelike design and advanced features will raise the bar for surveillance and safety standards across India.”*

By formalising this strategic alliance, both AXISCADES Technologies Limited and Electronic Bird Control are demonstrating a unified commitment to providing state-of-the-art defense solutions. The partnership not only highlights their mutual vision for excellence but also supports the ongoing modernisation of India’s defense forces, ensuring that the country remains at the forefront of global security standards.

About AXISCADES Technologies Limited:

AXISCADES is a leading, end-to-end technology, product and solutions provider aiding the creation of innovative, sustainable, and safer products worldwide in the Aerospace, Defense and ESAI domains. Headquartered in Bangalore with subsidiaries and offices worldwide, in France, Germany, Denmark, USA, and Canada. AXISCADES has a diverse team of over 3000+ professionals working across 17 locations across globe, striving to reduce the program risk and time to market.

AXISCADES has long term relationship with Defense Forces, MoD, Defense Labs and PSUs along with global OEMs. AXISCADES possesses deep domain experience in Weapon Systems, Avionics, Radar, Electronic Warfare, C4I2, Drones, Anti-Drone Systems, Test Solutions, GSE and GHE. We have executed several innovative in-house projects and partnered solutions for Land, Naval, Aerospace and Homeland Security.

The comprehensive portfolio of solutions covers the complete product development lifecycle from concept evaluation to manufacturing support and certification.

About Electronic Bird Control (EBC):

Founded in 2019, Electronic Bird Control specializes in the prototyping and development of drones to combat bird nuisance. The company is specialized in the design of bio-mimetic vectors. Leveraging its expertise, EBC develops and operates drones that resemble birds of prey through their E-Raptor range. Thanks to onboard technology and the expertise of the management team, the E-Raptor retains the natural efficiency, capable of reproducing all the movements of a falcon in hunting action without the constraints associated with its use.
